

ODIN

Orchestrated Decision Intelligence Network

An AI Assistant for Your HVAC Business

Everything it can do for a 1-3 person shop - in plain English

Prepared by Brock Shue - Shue Box LLC
May 30, 2026

What is ODIN?

ODIN is software that runs in the background of your business 24 hours a day - like a full-time office manager who never sleeps, never forgets, and never takes a day off. It keeps your jobs organized, watches your money, drafts your quotes, follows up with customers automatically, and brings old customers back - so you can stay on the tools and still grow.

How you use it

You talk to ODIN by simple text messages or a basic app. You can ask it things in plain English - "text the Johnsons their quote," "what did I spend on fuel this month?", "who haven't I followed up with?" - and it just does it. Everything else runs on autopilot in the background, whether you're on a roof or at dinner.

How to read this document

READY

= working today. We can switch it on for your shop right away.

BUILD

= a quick add-on we'd build for you, using parts we already have.

1. Stay Organized

Job Board

READY

Every job moves through clear stages: New, Quoted, Scheduled, In Progress, Done, Paid.

[Why it helps](#)

Customer History

READY

ODIN remembers every customer - their equipment, last service date, warranty info, and your notes.

[Why it helps](#)

Follow-Up Queue

READY

ODIN tracks every callback and unsent quote, then reminds you - or follows up for you.

[Why it helps](#)

Daily Briefing

READY

Each morning ODIN sends a simple rundown: today's jobs, addresses, customer notes, and what needs attention.

[Why it helps](#)

2. Track Your Money

Account Balances

READY

Securely connects to your bank (read-only) and shows all your balances in one place.

[Why it helps](#)

Spending Breakdown

READY

Sorts spending by category - fuel, parts, tools, insurance - by week, month, or year-to-date.

[Why it helps](#)

Subscription Watch

READY

Finds every recurring charge hitting your account automatically.

[Why it helps](#)

Profit Per Job

BUILD

Tracks revenue minus parts and labor on each job so you see what each one actually made.

Why it helps

Tax Set-Aside Reminder

Tells you how much to put away for taxes as money comes in.

BUILD

Why it helps

3. Win More Quotes

Instant Quote Drafter

Text ODIN a few details ("new AC, 1800 sq ft, attic unit, 14 SEER") and it writes a clean, professional quote in seconds.

BUILD

Why it helps

Good / Better / Best

Every quote comes back as three options automatically.

BUILD

Why it helps

Quote Follow-Up

If a quote isn't accepted, ODIN gently nudges the customer on day 2 and day 5.

READY

Why it helps

Professional Look

Quotes and emails go out clean, consistent, and branded to your shop.

READY

Why it helps

4. Grow Your Business

Seasonal Maintenance Plans

ODIN automatically reminds past customers for spring AC tune-ups and fall furnace checks.

BUILD

Why it helps
smooths out

Review Requests

After every finished job, ODIN texts a friendly "How'd we do?" with your Google review link.

READY

Why it helps

Win Back Old Customers

ODIN finds customers you haven't seen in a year or more and reaches out to them.

READY

Why it helps

Referral Asks

Automatically asks happy customers if they know anyone else who needs service.

BUILD

Why it helps

Owner Scorecard

Simple weekly numbers: jobs done, average ticket, close rate, revenue.

READY

Why it helps

5. Installs & Scheduling

Smart Scheduling

Books jobs on your calendar and blocks the right amount of time for each.

READY

Why it helps

Prep & Materials List

ODIN generates the parts and tools list for each job type before you head out.

BUILD

[Why it helps](#)

Customer Prep Texts

Auto-sends "We arrive 8-10 AM, please clear access to the unit" ahead of the job.

READY

[Why it helps](#)

Post-Install Wrap-Up

Warranty reminder and review request fire automatically once the job is done.

READY

[Why it helps](#)

6. Repairs & Diagnostics

Repair Intake

Captures the problem, urgency, and address when a repair comes in and slots it into your day.

READY

[Why it helps](#)

Diagnostic Knowledge Base

Load HVAC troubleshooting know-how into ODIN so you - or a helper - can look up symptoms fast.

BUILD

[Why it helps](#)

Parts Follow-Up

Tracks jobs waiting on a part and reminds you when to circle back.

READY

[Why it helps](#)

Repair-to-Maintenance Upsell

After a repair, ODIN offers the customer your maintenance plan.

BUILD

[Why it helps](#)

7. Never Miss a Lead

Missed-Call Text-Back

If you can't answer because you're on a roof, ODIN instantly texts the caller back.

READY

[Why it helps](#)

Instant Lead Reply

Leads from your website or Facebook get a reply within seconds.

READY

[Why it helps](#)

After-Hours Cover

ODIN responds nights and weekends so leads don't go cold.

READY

[Why it helps](#)

Coming in a later phase:

A full AI phone receptionist that answers calls out loud and books appointments by voice. We're holding that piece for a later step so we can get the core system working for you first.

What's ready now vs. what we'd build

Most of this is already working - we'd simply set it up for your shop. A handful of add-ons are quick builds tailored to HVAC.

Ready to switch on now:

Job tracking, customer history, follow-up queue, daily briefing, finance tracking (balances / spending / subscriptions), quote follow-up, branded quotes & emails, review requests, win-back old customers, owner scorecard, smart scheduling, customer prep texts, post-install wrap-up, repair intake, parts follow-up, missed-call text-back, instant lead reply, after-hours cover.

Quick builds for your shop:

Instant quote drafter, good/better/best pricing, seasonal maintenance plans, profit per job, tax set-aside reminder, prep & materials lists, diagnostic knowledge base, referral asks, repair-to-maintenance upsell.

What you'd need (it's simple)

- A phone number for texts - we set it up for you.

- A read-

No new computer. No complicated software to learn. ODIN meets you where you already are - your phone.

What it costs

To run: pennies a day in hosting and AI costs. To you, as a case-study partner: nothing. In exchange, we'd ask for honest feedback as we go and a short testimonial if you're happy with the results.

How we'd roll it out

1. A 30-minute sit-down to map how your shop runs today.

2. Week

ODIN's whole job is to give you back your time and stop money from leaking out of the business - so you can stay on the tools and still grow.
